

SHAHRIZOD

FULLSTACK DEVELOPER - PRODUCT BUILDER

I build Telegram platforms, payment systems and web applications used by real customers. Based in Uzbekistan, working globally.

30,000+ USERS

50,000+ ORDERS

3+ YEARS BUILDING

SELECTED PRODUCT WORK

CYBER DONATE

2023 - NOW

Telegram commerce platform for gaming currency and digital services. Built bot flows, Web App, payments, order handling and operational tools.

30,000+ users | 50,000+ orders | FastAPI / PostgreSQL / Telegram WebApp

STARS PAY

COMMERCIAL PRODUCT

Digital services marketplace for Uzbekistan with Telegram Stars, subscriptions, payment automation and admin operations.

Telegram API | Web App | Payment automation | Admin panel

CYBER MATE

PRODUCT IN DEVELOPMENT

Social product for gamers with profiles, communities, chats, groups and matchmaking-oriented interaction flows.

React | TypeScript | Telegram WebApp | Realtime UX

CORE STACK

PYTHON

FASTAPI

POSTGRESQL

REACT

TYPESCRIPT

DOCKER

LINUX

TELEGRAM API

HOW I WORK

- Real user problem before decorative concept
- Bot first, Web App next, then payments and admin tools
- Solo product delivery, support and iteration
- Scalable API, database and deployment patterns

CONTACT

Open to product work and collaborations

Telegram platforms, payments, dashboards and digital product infrastructure.
